Dr.Clauder's High Premium Snacks

Dear Sir or Madame,

All Dr.Clauder's Meat Snacks are made in specialized companies certified and approved by the EU approval authority. They are subject to constant regulatory surveillance.

In addition, our products are strictly controlled by our own quality assurance, in collaboration with the independent institute SGS Fresenius in Germany.

The tests include testing for nutritional information and testing for environmental toxins and contaminants. No environmental toxins or pollutants could be found and all previous studies have confirmed the observance of nutritional values.

Dr.Clauder's products stand for the highest premium quality. Therefore, we also vouch for the exceptionally high quality of all raw materials used by us.

Best regards

i. V. Nicole Helligenpahl
